Article One

Picture that you're sick in a hospital. A nurse comes up to you and brings you to a room. Inside, the doctor is sitting at a desk. Now, be honest. You pictured the nurse as a woman and the doctor as a man, didn't you? Then, you might hold a gender stereotype, and you should stop it.

Gender stereotypes can lead to many problems. People often say boys should be strong, brave, and good at sports. As for girls, they should be thin, kind, and good at cooking. These stereotypes can push people into hiding their true selves. For example, men seldom build a career in fashion or art, and women seldom choose a career in sports or science. Because of this, our world may lose many talents, so it's important to fight gender stereotypes.

Many people try to break gender stereotypes. Take Jason Wu and Kuo Hsing-chun for example. Jason Wu is an excellent fashion designer. His mom never stopped him from playing with dolls as a child, and she was always there for him. As for Kuo Hsing-chun, she believes women can be strong, too. To show this, she broke many world records. Both Jason Wu and Kuo Hsing-chun didn't let gender stereotypes hold them back, and now they are able to live lives to the full.

Everyone is special and different in their own way. Believe in yourself. Don't let gender stereotypes define you.
